Anatomy of a Solar Project

Meet With Clients To Discuss System Options

Determine Tax Credit Eligibility

For Undeveloped Site, Take Ground Level Readings

For Existing Buildings, Take Rooftop Exposure Readings With Solometric Sun Eye

Locate Any Rooftop Structures And Other Potential Rooftop Obstacles

Using Sun Eye Software, Calculate Solar Exposure And Identify Where Shade Elements Can Be Removed

Create Multiple Potential System Configurations Perform Economic Feasibility Study

System Design/Installation

State/Federal Rebate Applications

System Brought Online

Review Rebates/Operation
